Snap-on

Steel Hexagon Sockets

Snap-On sockets are machined from a solid special steel bar and accurately broached 1/64-inch oversize to insure perfect fit. The hexagon opening is slightly countersunk to allow the rapid placing of sockets on the bolt or nut. Sockets are scientifically hardened and are rust-proof. Snap-On sockets are guaranteed.

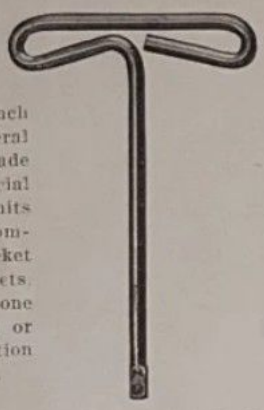
SNAP-ON WRENCH COMPANY

Factory: MILWAUKEE, WIS. General Offices: CHICAGO, ILL.

Snap-on

No. 3 Long Tee Handle



An unusually husky wrench (12 inches long) for general service use. Handle is made of one piece ½ inch special steel. Handle grip permits powerful leverage and complete turn of the nut. Socket nose takes all size sockets, making this a many in one wrench. Sockets snap on or off with ease and a friction ball holds socket in place.

No. 3—Long Tee ..... Each $1.00

No. 2 Short Tee Handle

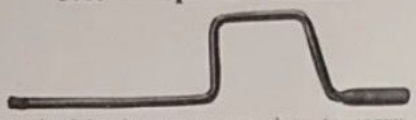
Similar to long tee wrench except in length. This wrench also takes all size sockets and gives a wide range of jobs without the need of more than one wrench.

No. 2—Short Tee ..... Each $0.95

Tee handle wrenches have man sized grip holds allowing for greater leverage. Offset wrench especially built for heavy work. Speeder and rim wrenches have solid steel knurled handles which swivel freely making them speed tools for assembling or disassembling purposes. All Snap-On handles are made from ½-inch special wrench steel and are finished in nickel rust proof finish.

Snap-on

No. 4 Speed Handle

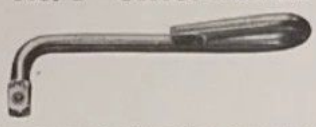


No need of having many speeders to carry or lay around when you can use one Snap-On speeder to do the work of all. The friction ball principle gives you a complete speeder set with only one wrench. Made of one piece ½-inch steel and capable of a wide range of jobs.

No. 4 —Speeder, Length Overall 21 in. ... Each $1.35

No. 4A—Speeder, Length Overall 19 in. ... Each 1.35

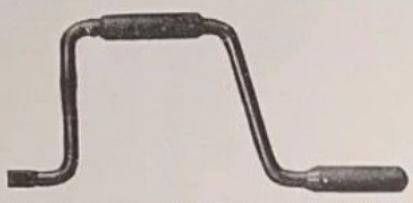
No. 1 Offset Handle



Like other Snap-On wrenches, nose is made to take all size sockets. Unusually strong with an easy grip hold.

No. 1—Offset ..... Each $0.80

No. 5 Rim or Brace Handle



Fits all size rims and is very popular with car owners, garages and machine shops because nose point takes all size sockets. A wrench of many uses and great service.

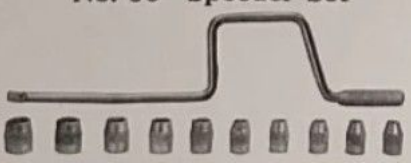
No. 5 —Rim or Brace, Length Overall 13½ in., Each $1.50

No. 5A—Rim or Brace, Length Overall 14½-in., Each 1.50

Individual Handles, Sockets or Attachments May Be Ordered As Wanted.

Snap-on

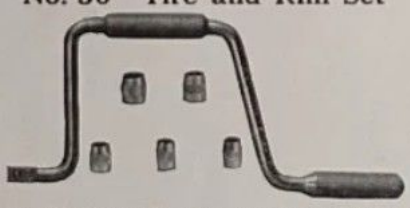
No. 60 Speeder Set



This set contains one long speed wrench and ten Snap-On all steel hardened sockets, making it the equivalent of 10 socket speeders. This type wrench is used by practically all garages and is very popular owing to the speed obtained in taking down and assembling motor cars, trucks, tractors, etc. Also useful for dismantling all kinds of machinery. Speed wrenches are indispensable in any garage or repair shop. Socket sizes are from 7/16" to 7/8" inclusive.

No. 60—Set packed in container ..... Each $4.75

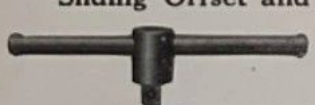
No. 50 Tire and Rim Set



The set illustrated is very popular with tire repair men, vulcanizers and garages as it enables the workman to make quick changes with the need of only one wrench. The sockets furnished with this set allow for work on all rims. No need of having five rim wrenches when one will do the work of five.

No. 50—Set $3.30

Sliding Offset and Tee Handle



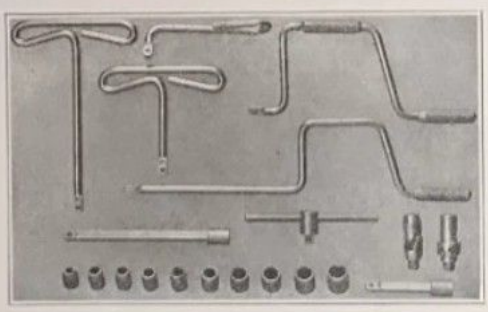
8-5 ..... $0.60

Extension Bar

No. 8-6—Bar 5" .80.55 No. 8-12—Bar 10" .60

Snap-on

No. 101 Master Service Set



Every mechanic should own a No. 101 Set which contains practically every socket wrench you need. By interchanging sockets on handles you have the equivalent of 10 standard speed wrenches, 10 long tees, 10 offsets, 10 short tees, and 10 rim or brace wrenches ranging in size from 1/4-in. to 9/16-in. S. A. E. cap-screw sizes with openings from 7/16-in. to 7/8-in. With this set you can reach practically any nut, however inaccessible. The ratchet attachment may be used on any handle or unit in connection with any size of socket. This ratchet works to real advantage in the tightest places and is the strongest made. Using the universal joint with speeder handle you have any size universal speeder wrench by simply interchanging sockets. In connection with tee handles you have all sizes universal tee wrenches. This set is equivalent to practically an entire socket wrench line—weighs 13 lbs—takes up very little space—and is handy to move from one job to another.

No. 101—Set packed in container $15.25

No. 100 Senior Service Set

This set is identical to No. 101 Set described above with exception that the S-5 handle and S-6 and S-12 Extension Bars are not included.

No. 100—Set packed in container $13.50

No. 45 Junior Service Set

A very handy set for the mechanic consisting of the speeder handle, offset, short tee, long tee, and rim handles and one each of the following sockets: 7/16-in., 1/2-in., 9/16-in., 19/32-in., 5/8-in., 11/16-in., 3/4-in., 25/32-in., 13/16-in., 7/8-in. A combination of fifty standard service wrenches is made with this set.

No. 45—Set packed in container $9.00

Snap-on

No. 750 Dealer's Display and Stock Set

Dealers can increase accessory sales considerably by showing this attractive Display Board in their stores. Every car owner, mechanic and farmer is a prospective purchaser of Snap-ons because of their compactness, strength and efficiency. The interchangeable socket feature gives the user any type or size of general service wrench he may need. And all this in a few handles and sockets, at a price within reach of all. Size of board, 26x32 inches.

Set contains:

5 Long Tee Wrenches	5 Universal Joints
5 Short Tee Wrenches	5 Offset & T Handles
5 Speeder Wrenches	5 Long Ext. Bars (10-in.)
5 Rim & Brace Wrenches	5 Short Ext. Bars (5-in.)
5 Offset Wrenches	1 Display Board
5 Ratchet Attachments	

100 Assorted Sockets, 10 each—7/16-in., 1/2-in., 9/16-in., 19/32-in., 5/8-in., 11/16-in., 3/4-in., 25/32-in., 13/16-in., 7/8-in

No. 750 Set—In Containers for Shelf Display $93.25

Snap-on

No. 6 Ratchet Attachment

An unusually strong reversible ratchet for use in connection with Snap-On wrenches and especially designed for quick and easy work in places inaccessible with the ordinary ratchet wrench. Its small diameter makes it possible to be used to good advantage in hard-to-get-at places. This ratchet can be used in connection with all size sockets or any type of handle.

No. 6.....Each $3.00

No. 8 Universal Joint

Universal joints are full machined finish and made of solid steel. May be used in connection with all units and handles. Joint snapped on Tee wrench will make universal Tee handle wrenches of all sizes. When used with Speed wrench and Snap-On sockets will make 10 universal joint speeders. These combinations will reach nuts otherwise inaccessible.

No. 8.....Each $1.50

No. 80 Car Owners' Set and Kit

This is a small set assembled with the object of providing a complete socket wrench equipment for ordinary repairs and adjustments such as the car owner will be likely to undertake. This set consists of 1 No. 5 Rim or Brace Handle, 1 each S-6 and S-12 Extension Bar, 1 No. S-5 Offset and Tee Handle, and 10 Sockets, No. 140 to 280, inclusive; 1 Canvas Kit Bag.

No. 80 Set.....Each $7.50
